

PARINITHA R S

AI/ML Engineer | Full Stack Developer | Data Scientist

parinithars2006@gmail.com | 9841782223 | Chennai | www.linkedin.com/in/parinithe-r-s-278365350

ABOUT ME

Artificial Intelligence and Data Science student with hands-on experience in Machine Learning, Deep Learning, Data Analytics, and AI application development. Skilled in Python, TensorFlow, Scikit-learn, Streamlit, SQL, and Power BI. Developed projects in fraud detection, disease prediction, chatbots, and predictive analytics with a focus on solving real-world problems. Solve problems in leetcode, hackerrank.

SKILLS

- **Programming:** Python, Java, SQL
- **AI/ML:** Machine Learning, Deep Learning, NLP, Scikit-Learn, TensorFlow
- **Web Development:** Django, Flask, FastAPI, React, HTML, CSS, REST APIs
- **Data Science:** Pandas, NumPy, Matplotlib, Power BI
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Postman, VS Code

EDUCATION

ANAND INSTITUTE OF HIGHER TECHNOLOGY, CHENNAI

B.Tech – Artificial Intelligence and Data Science

2023-2027 | CGPA – 8.79/10

INTERSHIPS

PYTHON FULLSTACK INTERNS | INFOSYS

SEP 2025 - NOV 2025

Pet Adoption & Rescue Management System

Tech Stack: React.js, Node.js/Django, MongoDB/PostgreSQL, REST API, Firebase

- Developed a full-stack pet adoption platform for managing pet listings and adoption requests
- Implemented user authentication and role-based access control
- Built search, filtering, and image upload features to improve user experience

GITHUB LINK: <https://github.com/Parinithe1506/Pet-Adoption-and-Rescue-Management-Portal.git>

AI/ML INTERNS | MICROSOFT

MAR 2025 - APR 2025

AI Multi-Disease Prediction System

Tech Stack: Python, Scikit-learn, Flask/Streamlit, HTML, CSS, JavaScript, SQL, Git

- Developed an AI-powered Healthcare System to predict multiple diseases (Heart, kidney, diabetes) using Machine Learning
- Implemented secure user authentication and transaction analysis features
- Built an interactive dashboard for real-time prediction and visualization
- LINK: <https://github.com/Parinithe1506/Ai-Healthcare-System-.git>

PROJECTS

Eye Disease Prediction Using Deep Learning

JUNE 2026

Developed a CNN-based deep learning model for eye disease detection using medical image datasets and image preprocessing techniques.

Built a Streamlit-based prediction interface with confidence scoring and model performance evaluation.

GITHUB LINK: <https://github.com/Parinithe1506/DL-Eye-Diseases-Classification-Project.git>

Offline Personal Chatbot Using GGUF & Ollama

MARCH 2026

Developed an offline AI chatbot using Ollama and GGUF models for local inference without cloud dependency.

Implemented conversational memory and optimized performance for privacy-focused AI interaction

GITHUB LINK: <https://github.com/Parinithe1506/AI-Personal-Assistant-Chatbot.git>

ACHIEVEMENTS / COURSES

- Awarded **Grade A+ in Python** by CodeFobe
- Won **2 Prizes at National-Level Technical Symposium** conducted by MNM Jain College
- Completed **Python Foundation Certification** from Infosys
- Completed **Data Science Complete Course** from IBM
- Completed **Power BI Course** from Microsoft
